SUMMARY

Flutter software engineer building cross-platform apps for iOS and Android across the full lifecycle, from planning and implementation to store release and production maintenance, on white-label products and multi-tenant platforms. Business Information Systems graduate with honors, ranked 4th in class.

WORK EXPERIENCE

Software Engineer Feb 2025 – Present

Apes Solutions, Cairo

- Lead Flutter development across iOS and Android for client projects including Spark, AISU, Arab Steel Summit, INSPKT, HPadel, RiseUp Summit, Galsa, EventBeez, Padbol Egypt, EIBS and Tamreena, covering white-label builds, multi-tenant architectures and admin panels.
- Monitor live apps and fix issues before users hit them; plan implementation, break down tasks and set realistic timelines with the team.

Flutter Developer Dec 2024 – Jan 2025

Talento, Remote

- Worked with the back-end team to build clean, reusable UI components and API integrations, improving data flow and app performance.

Flutter Developer Jul 2024 – Dec 2024

Status Strong, Remote

- Found and fixed UI bugs across iOS and Android, and made targeted feature improvements that cut load times and made the app more responsive.

Junior Flutter Developer Jul 2023 – Nov 2023

Apes Solutions, Cairo

- Built app components for Views Real-Estate and Smash Padel, including API integrations that improved how data was fetched and displayed.

Data and Product Intern 2022 – 2023

Gameball, MEGA for Construction, eTax

- Built Power BI KPI dashboards at MEGA and SAP BusinessObjects dashboards at eTax; worked on product analytics at Gameball.

SKILLS

Programming Languages: Dart, Python, C++, PHP, C, JavaScript, TypeScript

Mobile and Web Development: Flutter, Firebase, REST APIs, BLoC, React, Next.js, HTML, CSS, Bootstrap, WordPress

Data Analytics and Visualization: SQL, Power BI, R, Streamlit

Tools: Git, GitHub Actions, Figma, Adobe Photoshop

Languages: Arabic (Native), English (Proficient)

EDUCATION

Bachelor of Business Information Systems 2020 – 2023

Arab Academy for Science and Technology (AAST), Cairo

Graduated with honors, GPA 3.88, ranked 4th in class

Computer Engineering (incomplete) 2017 – 2020

American University in Cairo (AUC)

PROJECTS

SANAD, Graduation Project (Flutter, Firebase)

A cross-platform app for people with disabilities in Egypt: government services, medical bookings and jobs, with a voice-activated chatbot and an accessibility-first design.

RSVP Studio (Next.js, TypeScript, Prisma, PostgreSQL)

A web app to build an RSVP page for any event, share one link and track replies; covered by 153 automated tests.

Operations Insights Dashboard, Freelance (Python, Streamlit)

A Google Sheets-backed client dashboard: live KPI cards, interactive charts, filterable tables and exports.
